**Application Process**

Graduate program applicants should review the degree requirements for their program of interest and the [graduate admissions-FAQ](#) before submitting their graduate application.

UTEP CS undergraduates may enroll in dual- credit courses if admitted to the graduate school [Fast-Track](#) program or enroll in a graduate course in their final semester if admitted to the graduate school [Reserve Credit](#) program.\*

\*Prior approval from the CS graduate program advisor for the student's program of interest is required before applying to either the Fast-Track or the Reserve Credit program. The graduate admissions-FAQ provides instructions on how to schedule an appointment with a CS graduate program advisor.

**Application Deadlines**
